Gathering Information Practice

This assignment is all about hands-on practice in the Gathering Information Phase. I have located two great TryHackMe rooms, for you to practice getting familiar with reconnaissance. For this assignment, select the one that aligns with your current skill level and interests.

Instructions

Choose Your Focus: Choose between the 'Easy' and 'Medium' options based on your comfort level and interest in the topics.

Complete the Room: Follow the instructions within the chosen room to complete the exercises. Take your time to understand each concept and practice hands-on. Use this opportunity to enhance your skills in a controlled environment.

Reflect: After completing the room, reflect on what you've learned. Consider the challenges you faced and how you overcame them.

Room Options

Easy

WebOSINT
https://tryhackme.com/room/webosint

In this room, you'll explore fundamental reconnaissance techniques to conduct basic Open-Source Intelligence (OSINT) research on a website. Tasks include investigating WHOIS registration, delving into DNS details, and peering into the history of a website.

Medium

SoMeSINT
https://tryhackme.com/room/somesint

If you enjoy going down deep rabbit holes, and don't mind a bit of a challenge, this room provides a great introduction into popular techniques and tools for online investigations. In this room, you act as a private eye based out of Greenland who must harness Social Media Intelligence (SoMeINT) to unravel the story of a mysterious husband. You will learn about Google Dorking, website archiving, social media enumeration/analysis, and the application of OSINT techniques in the context of social media investigations. *Familiarity with Python is recommended but not required.*

Happy hacking!
